Provider Enrollment Tracking System (PETS) I & II

Attribute	Description
Physical Location	1615 Capitol Ave. 1st Floor
Number of Users	115
Volumes	
Total Current Records	~600,000
Average Number of Requests per Month	~36,000
Current Database Storage Capacity	~1GB
Current Database Storage Used	~0.04GB
Current Database Production Usage	~0.01GB
Application Development	Microsoft Access 2003
	Microsoft Transact SQL
Hardware Characteristics	
Servers: FRONT-END Application	PC PIII 256RAM PC Clone
Servers: BACK- END Application	Dell 2850 Attached to a SAN
Software Characteristics	
Operating System (Servers)	Microsoft Windows 2003 (SP1)
Operating System (Workstations)	Microsoft Windows XP
Database Applications	Microsoft SQL Server 2000 (SP3)
Application Development	Microsoft Access 2003
	Microsoft Transact SQL
Network Characteristics	DHS Wide Area Network
	10/100 Ethernet
	Switch and router infrastructure
Security	Three-tier authentication:
	User Network login
	User Database Access Authentication
	User SQL Server permission
Backup	Transaction Log backup every 30 minutes
	Nightly - Log backup
	Weekly Full System and Server Backup
Custom Applications	Front End Access 2003 database with all business logic.
